

## Dolt Right Solutions

We serve you in a better way...

**MCP 40 HD**

### TECHNICAL DATA

S.NO	PARAMETERS	MCP 40 HD
1	Technical identification number	875
2	Maximum concrete pressure(bar)	60
3	Maximum theoretical output(m <sup>3</sup> )	12
4	Maximum horizontal placing distance(m)*	140
5	Maximum vertical placing distance(m)*	40
6	Delivery cylinder diameter x stroke	180X1000
7	Delivery cylinder volume(litre)	25.4
8	Engine	KOEL HA 394
9	Drive power	35KW
10	Hydraulic circuit	OPEN
11	Hydraulic oil volume	100 litres
12	Volume of hopper(litre)	250 litres
13	Type of valve	Gate valve
14	Weight(Kg)	1800KG
15	Hopper feeding height(m)	1.2
16	Dimensions (Length X width X height) mm	3800X1800X1800

## ● Suitable for Contractors

- Pumping distances mentioned are to be used as guide only. The maximum attainable distances depend upon concrete mix design, pipe line diameter & condition of the walls of the pipeline.
- Maximum output & distance cannot be achieved simultaneously.
